

MAXICHECK[®] MAXITPMS[®] MAXISYS[®] AUTOLINK[®] MAXIVIDEO[®]

LIMITED WARRANTY

Dated sales receipt or invoice must be provided to honor Autel warranty

STANDARD POLICY

Autel warrants to the original end-user customer that its products are free from defects in material and workmanship for a specified period of time depending on product. Autel, will at its discretion, either repair or replace warranted products. Replaced products will either be new or re-certified. All re-certified products will be tested to ensure their hardware and software are functionally equivalent to new products.

The Limited Warranty covers only device failure. It does not cover any damage to the product (including but not limited to cracked screen, broken case, chemical exposure or liquid damage) as a result of accident, abuse, misuse, natural disaster, insufficient or excessive electrical supply, abnormal mechanical or environmental conditions or unauthorized disassembly, repair or modification. This limited warranty shall not apply if the product was not used in accordance with accompanying instructions or intended use. This limited warranty does not apply to any product with an altered or removed original identification number. This limited warranty covers only repair or replacement of Autel products, it does not cover any damages or losses of any kind resulting from use or misuse of product.

SERVICE PROCEDURE

A defective product may be returned to Autel only after obtaining a Return Goods Authorization (RGA) number from Autel. If any customer has questions or believes it necessary to return the tool for repair, contact your local distributor or Autel technical support to obtain an RGA number and instructions to send the tool to an Autel RGA department for service. The end-user is responsible for the cost of insuring and shipping to Autel. Tools must be properly packaged to prevent damage during transit. Autel will cover shipping cost of the repaired or replacement tool with the same delivery speed by which it was sent in to Autel. The Autel RGA number must be prominently displayed on the outside of the package. Shipments received by Autel without the RGA number prominently displayed on the package exterior will be returned unopened.

AFTER PURCHASE

Refer to Autel Update Instructions for details on how to register your tool or contact technical support for any questions.

NEW J2534 MAXIFLASH ELITE

A NEW LEVEL OF COMMERCIAL VEHICLE DIAGNOSTICS

EXTENSIVE COVERAGE

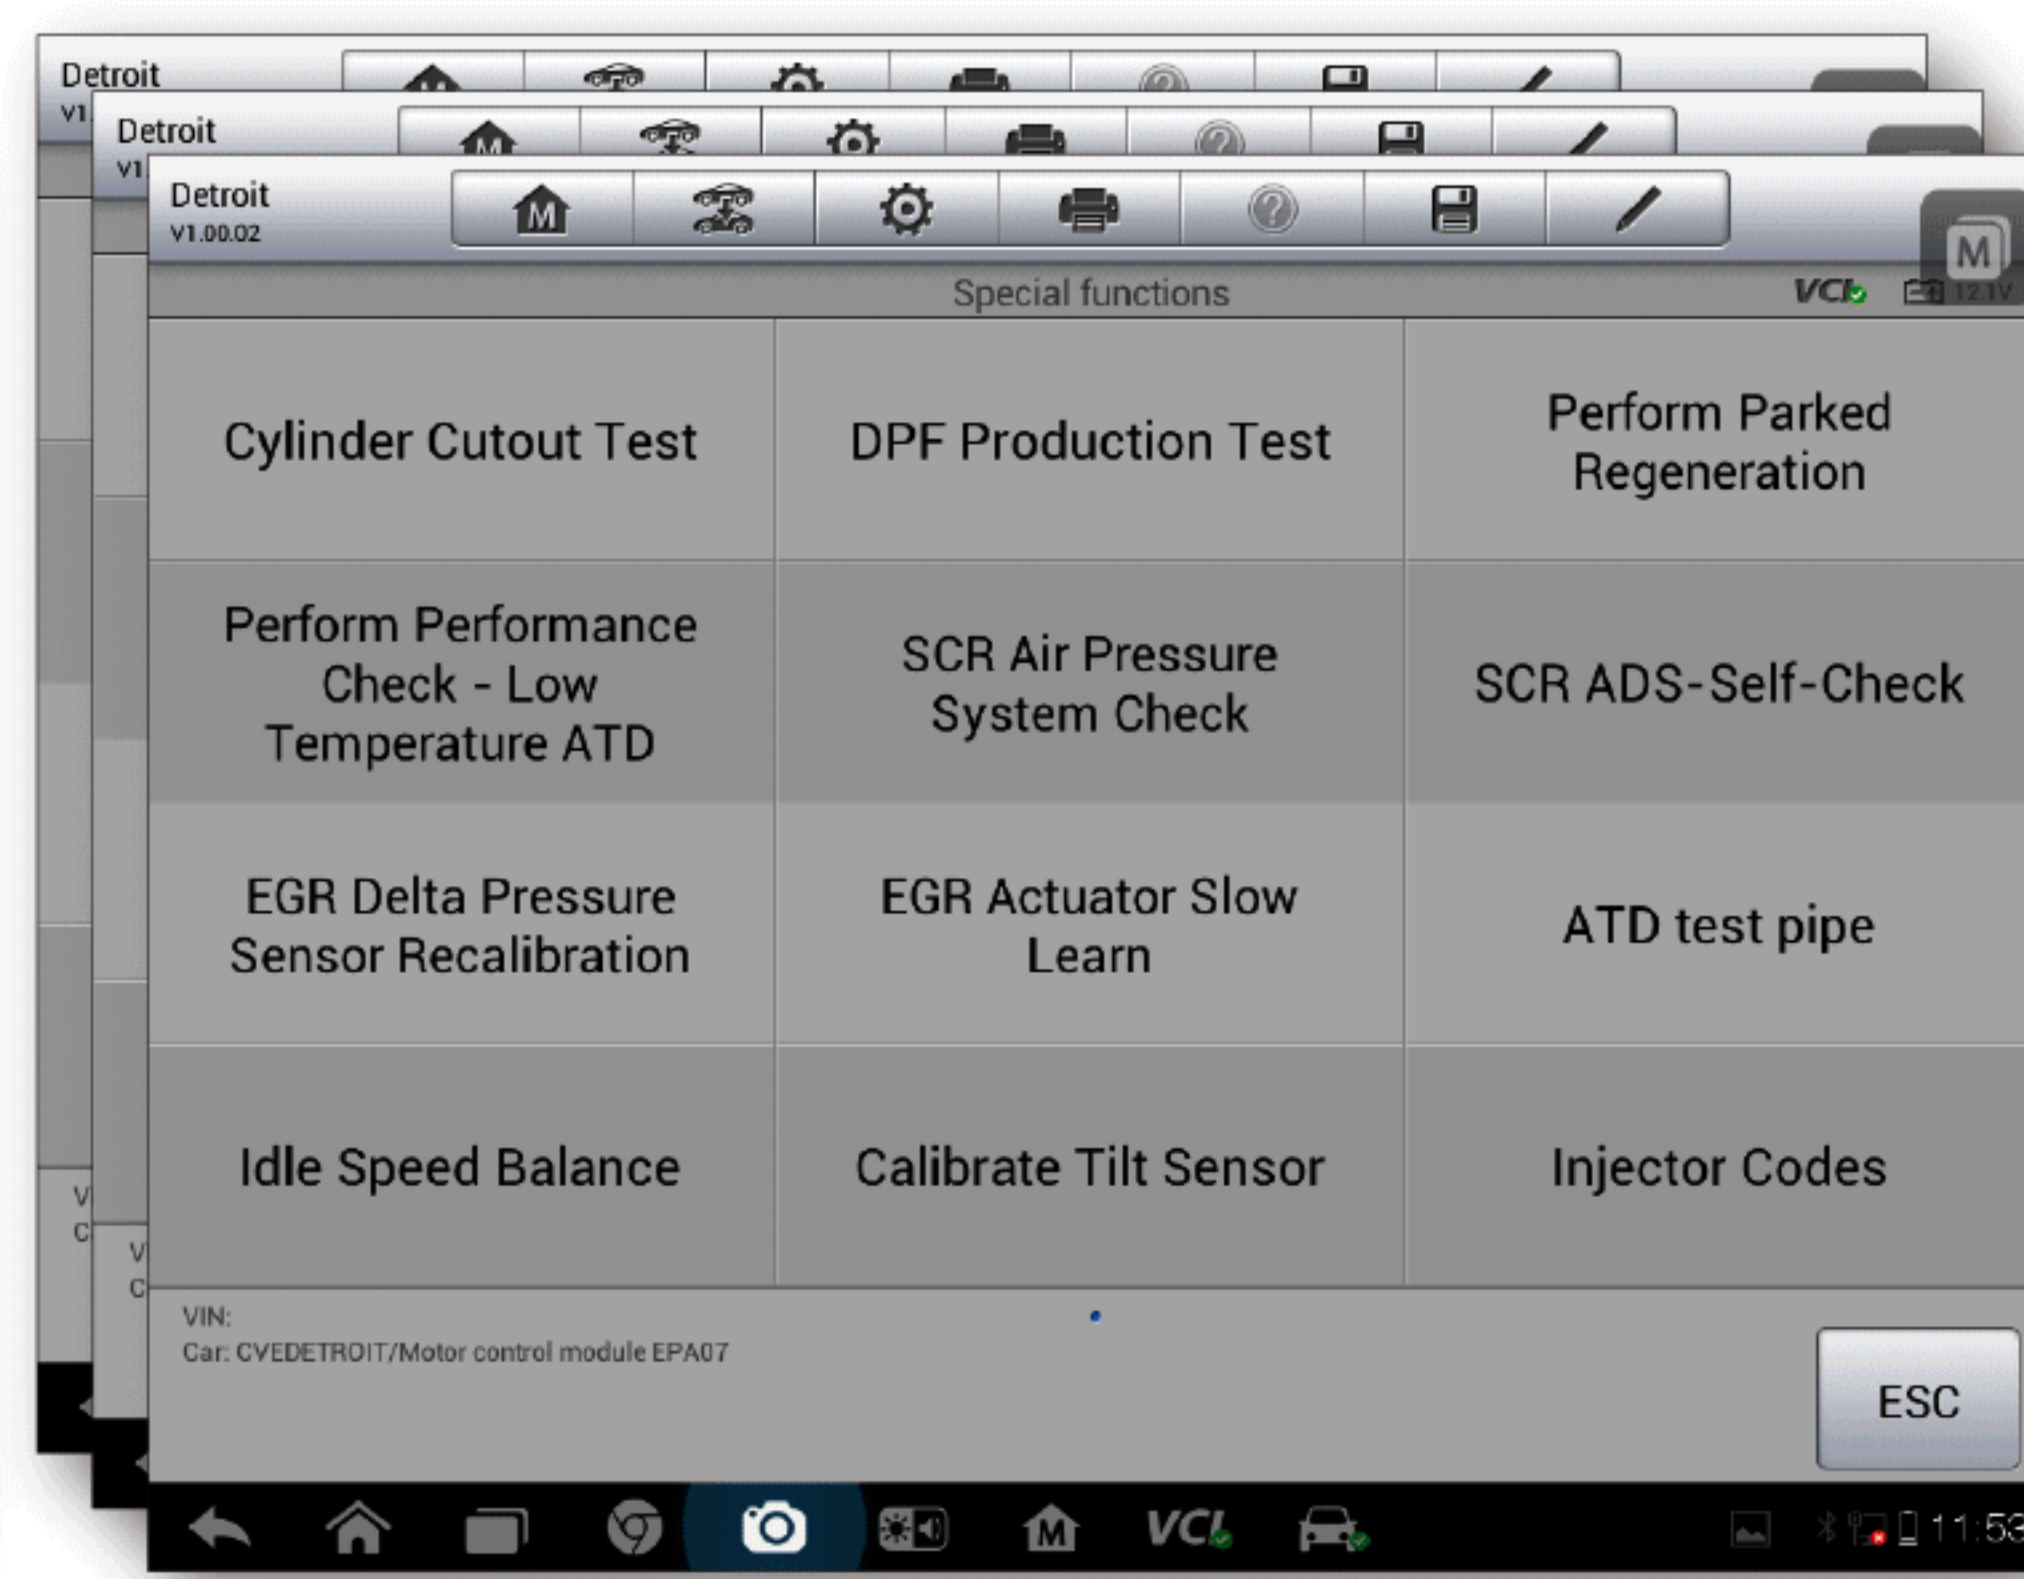

Whereas the competition provides coverage only for most heavy duty trucks, MaxiSys CV takes it further by providing an extensive coverage from heavy duty trucks to medium and light duty diesels, and from buses to agricultural & industrial machinery. It offers authentically tested and licensed coverage of 60+ vehicles, including Volvo®, Toyota®, Foton Daimler®, Isuzu®, Bendix®, Allison®, Mack® and more. Coverage is also available for vehicle components used by major OEMs including Iveco®, Freightliner®, International®, Commins® and Mercedes Benz®.

SUPERIOR PRODUCT

VEHICLE COVERAGE

The most extensive system coverage for more than 60 American, Asian and European makes and models.

SPECIAL FUNCTIONS

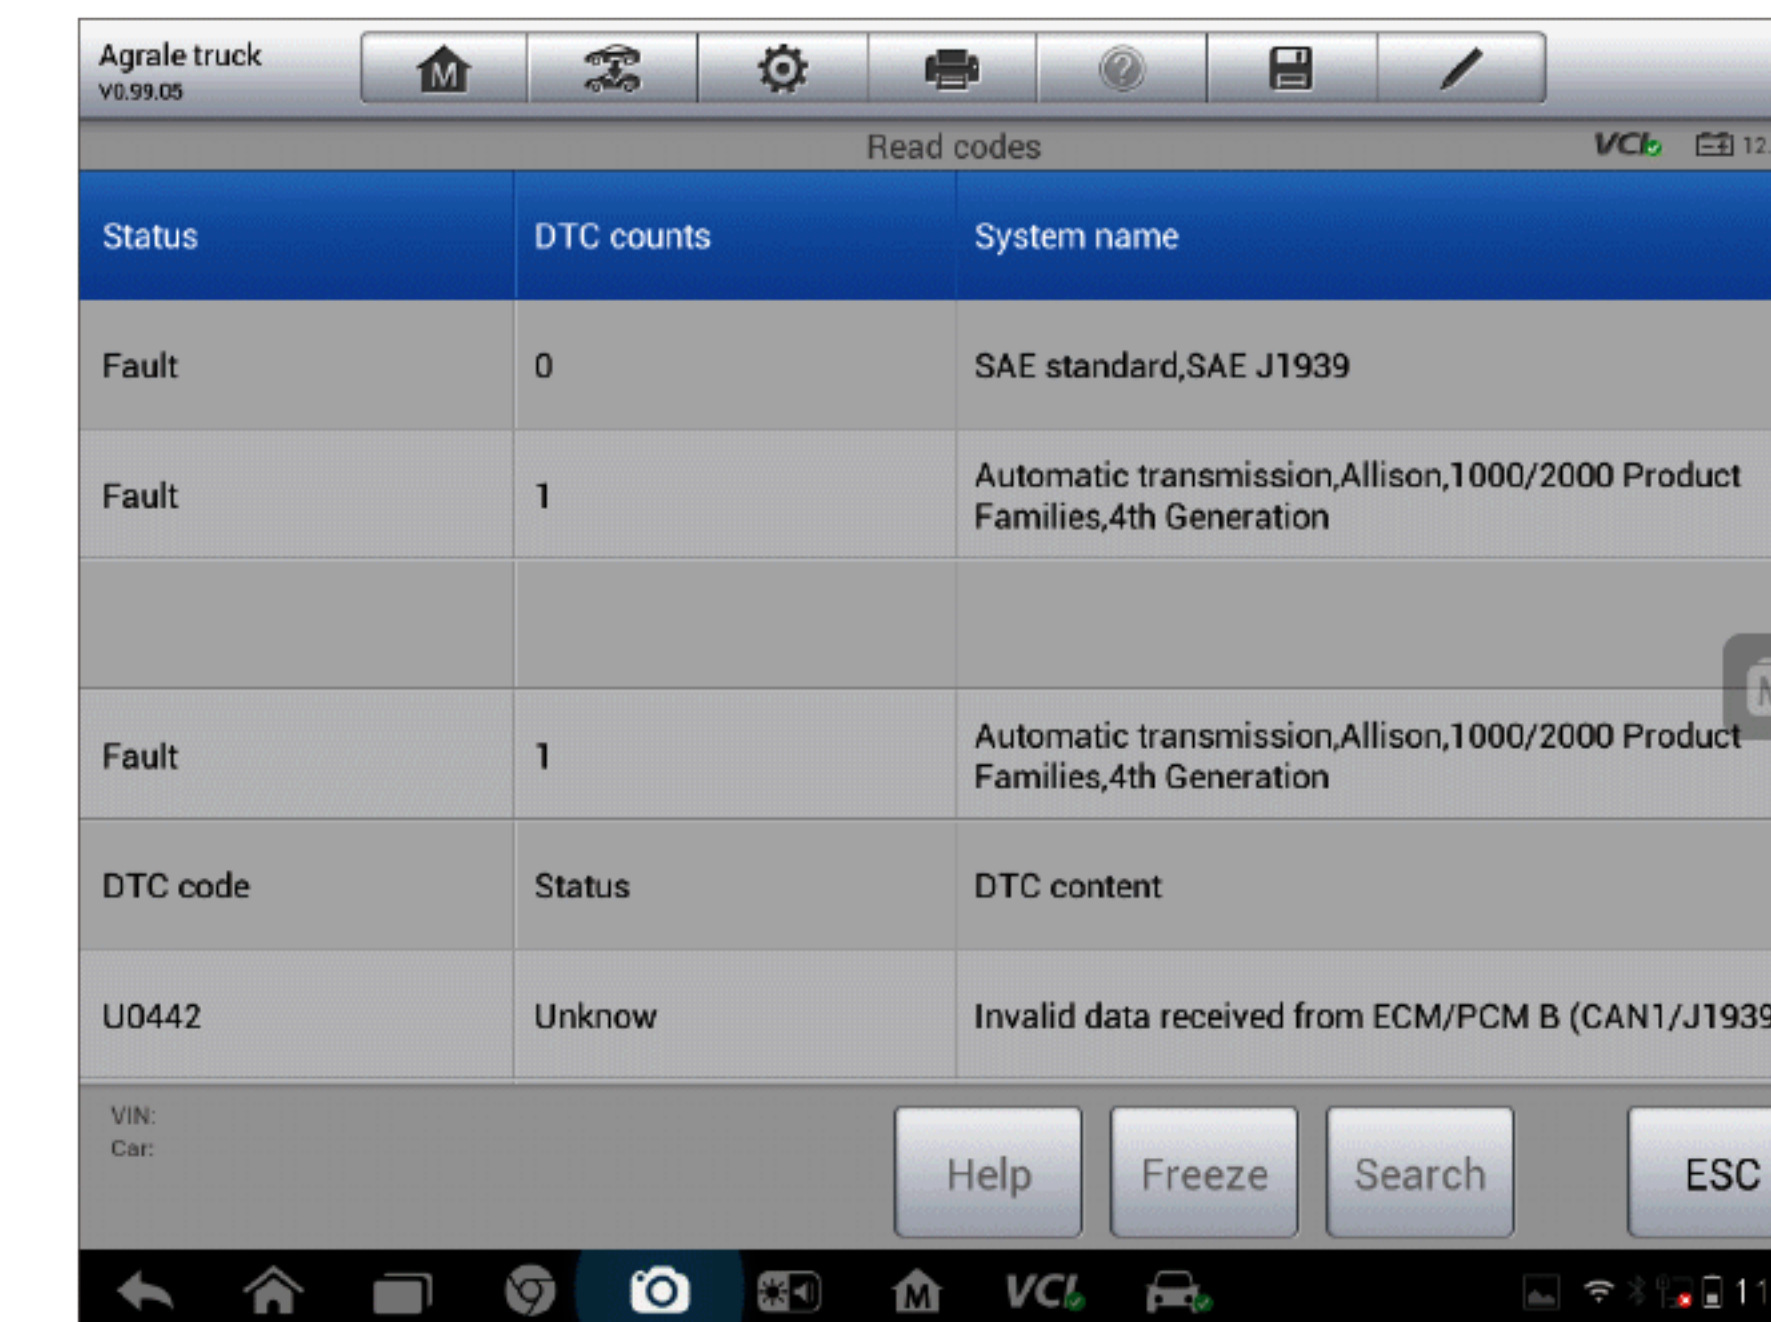

A wide range of special functions for vehicle repair and maintenance.

POWERFUL HARDWARE

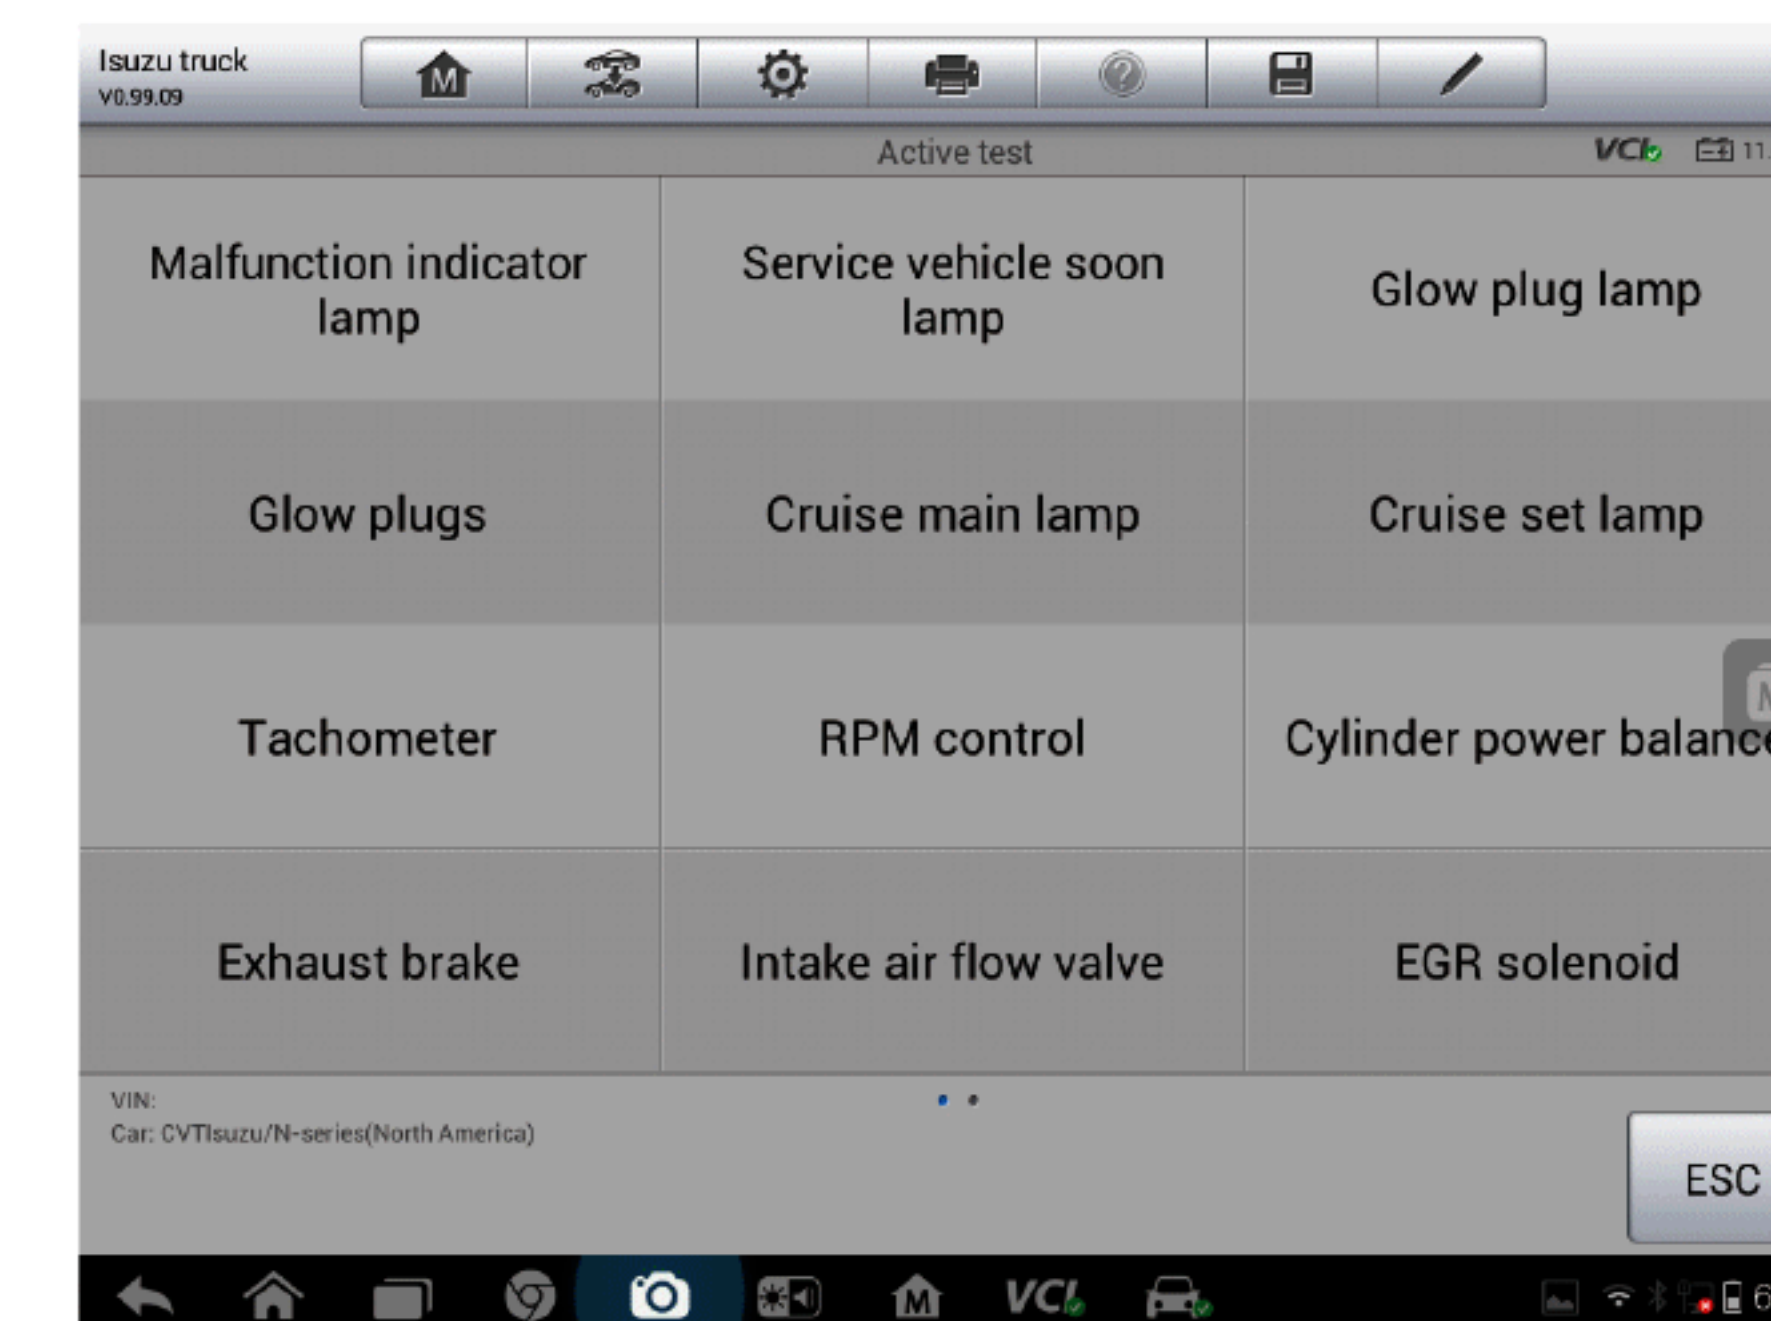

- 9.7" HD display automatically adjusts for indoor and outdoor brightness
- Highly sensitive LED capacitive touchscreen enables easy viewing of wire schematics and technical information
- 32GB solid state drive to store data and update software
- Mini SD card slot for greater memory to store and share test results

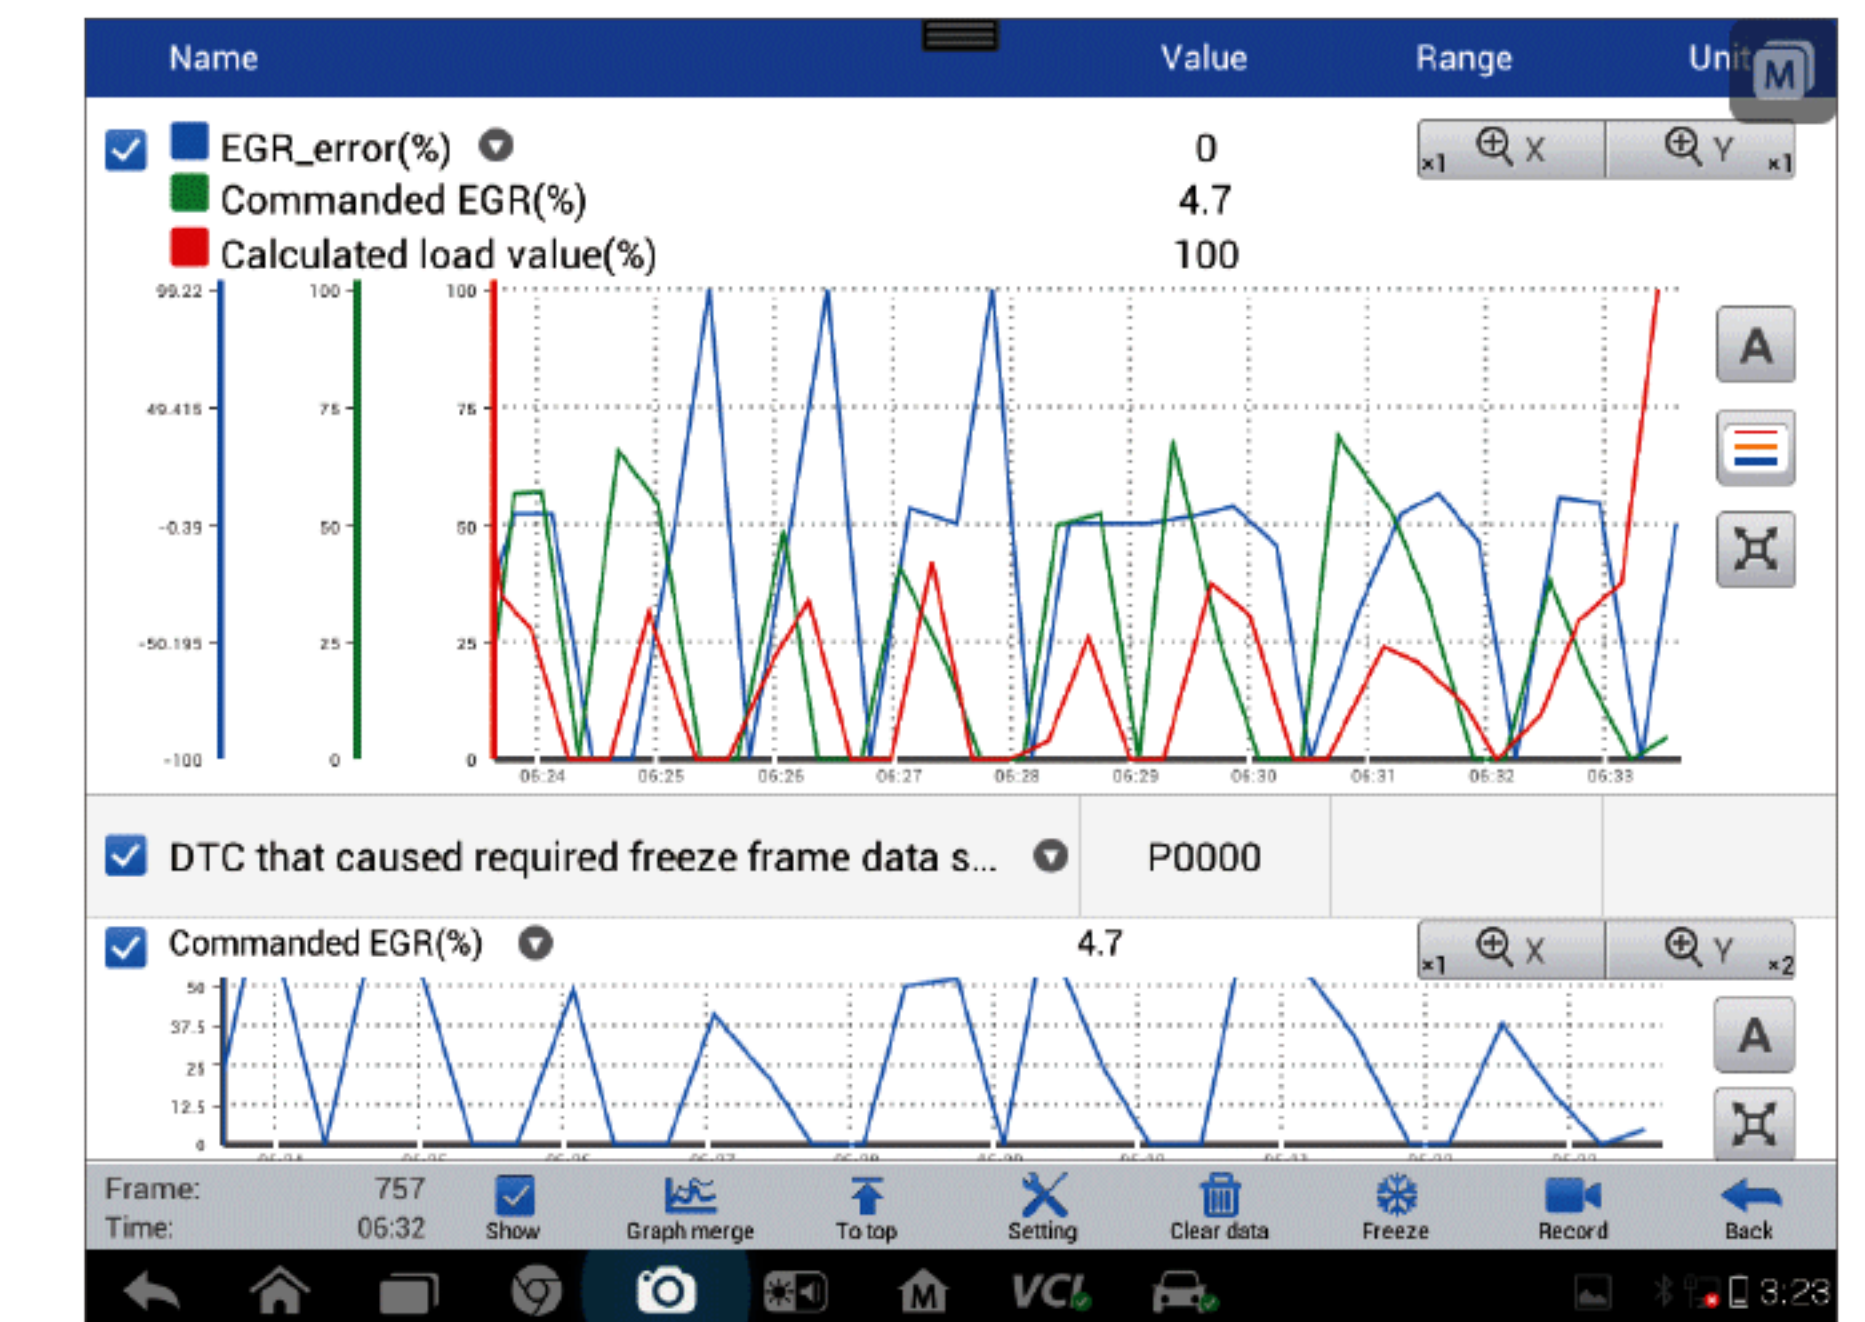

EXCEPTIONAL FUNCTIONALITY

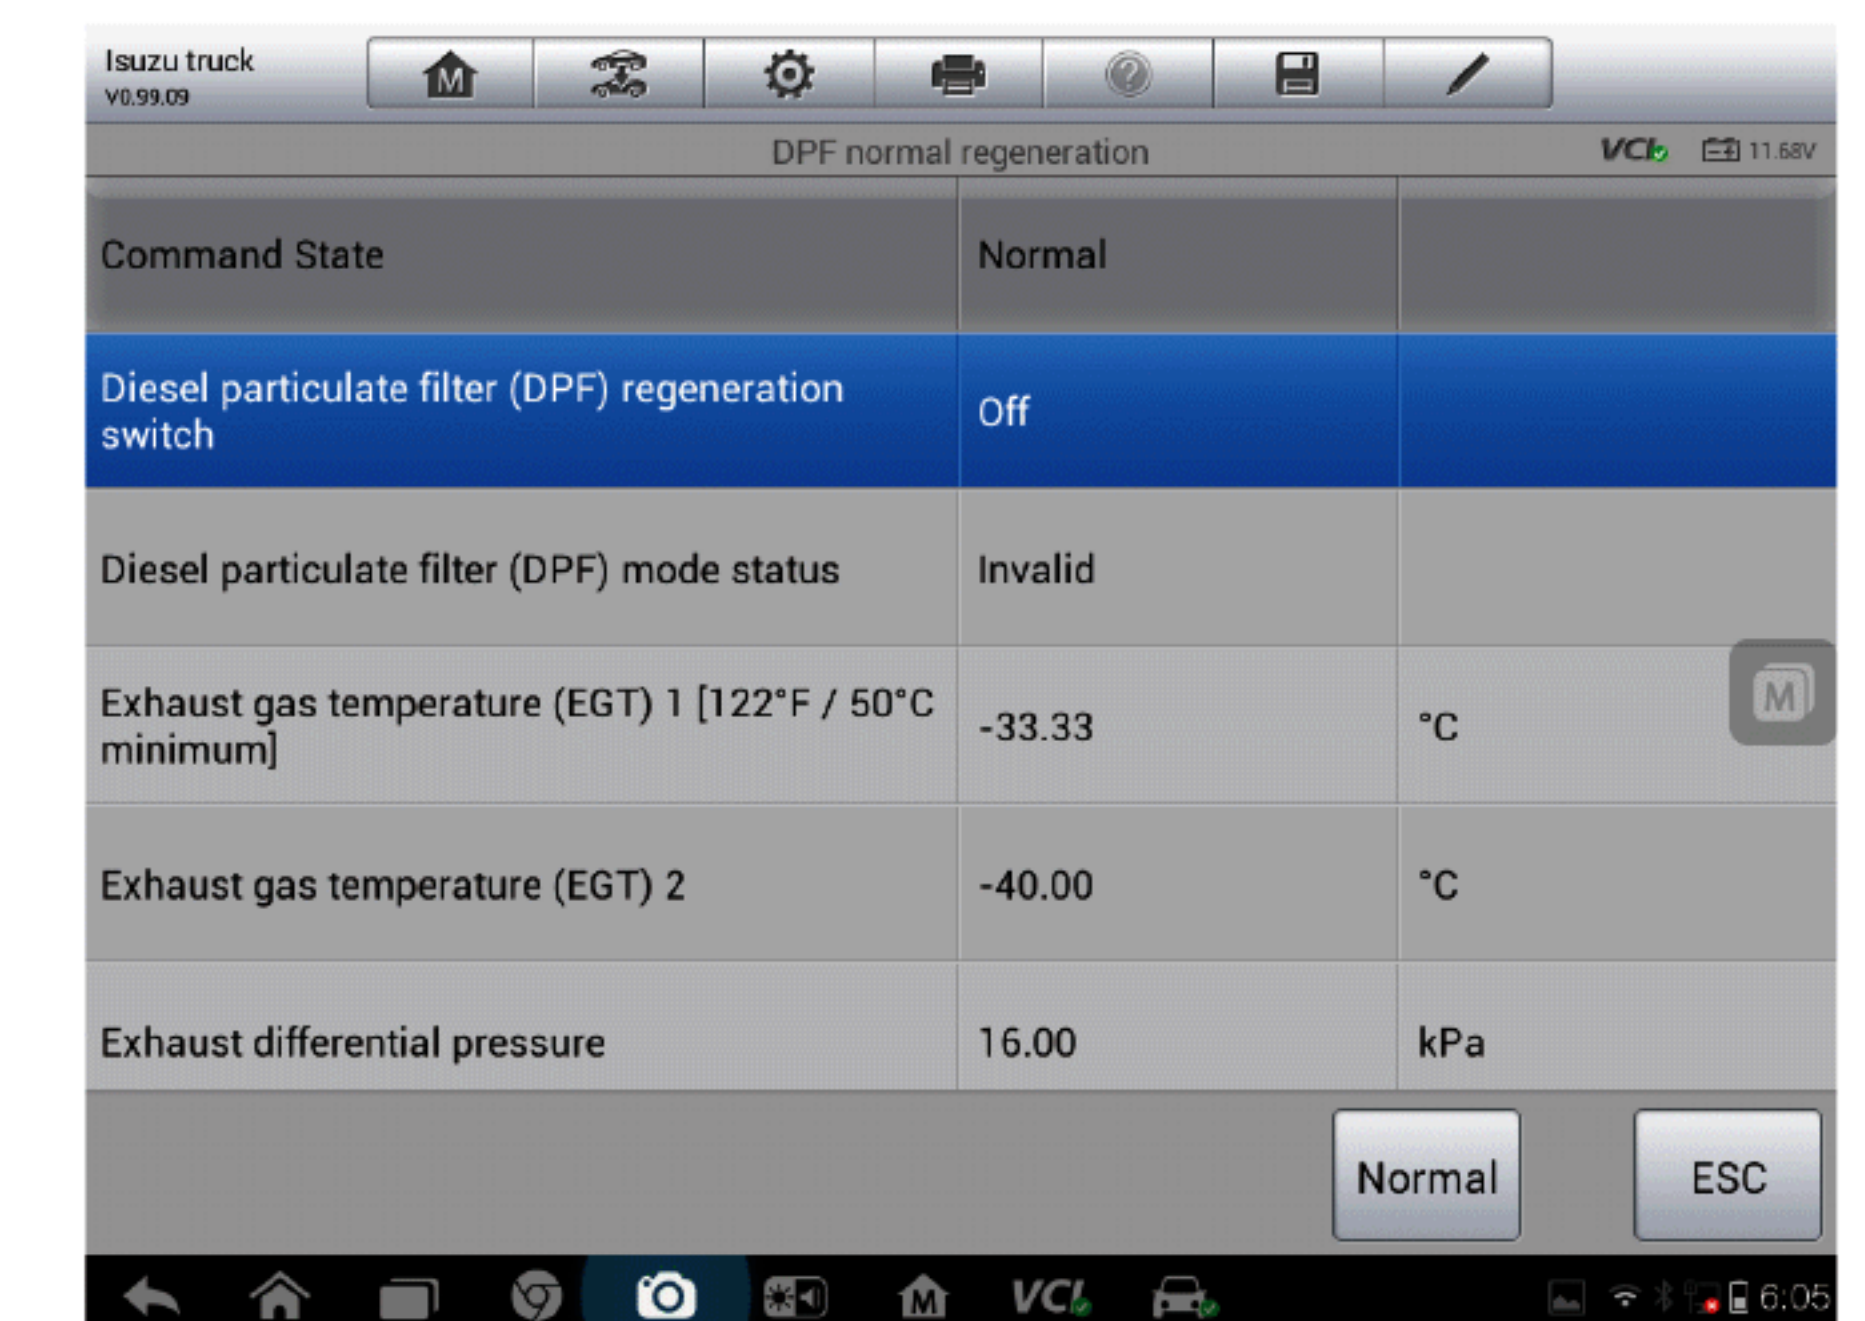

DIAGNOSTIC CODES

ACTIVE TEST

LIVE DATA COMPARISON

DPF REGENERATION

- Critical maintenance functions to manage vehicle costs, such as: read & erase faulty codes with straightforward code descriptions, obtain travel data to manage vehicle and driver performance, generate health reports
- Manage on-road vehicles with strong repair functions: detect critical problems through live data graphing, check out component malfunctions and implement repairs via special tests, as well as program vehicle operation and components replacement from custom parameters
- Customize vehicle operating limits through calibration functions
- Offer multiple-system data comparison as well as real-time data graph
- Authentically tested and licensed coverage of 60+ vehicles, including Volvo®, Toyota®, Foton Daimler®, Isuzu®, Bendix®, Allison®, International®, Commins® and more
- Revolutionary open source Android operating system allows for easy and intuitive multiple-task performance
- High speed processor ensures fast results and data display
- Wi-Fi and Ethernet port for internet access and software updates
- Auto VIN technology allows for fast and precise vehicle identification
